

BroadAcre Cereal Mix

BroadAcre Cereal Mix is specifically formulated as a multi-element mix for cereals, using the unique ACIDplex technology for easy mixing, enhanced compatibility and efficiency of uptake. Adding BroadAcre Cereal Mix to the spray tank will also improve spraying water quality.

Specifically designed to maintain high rates of growth in high potential crops

Type:

Micronutrients

Features

- Cost-effective
- Rapid dissolving dust-free powder
- Easy to use
- Excellent compatibility
- Low pH, aiding penetration

Product Specs:

Appearance:

Light Tan Powder

Typical analysis: -

Nitrogen (N) 6.9 w/w

Magnesium (MgO) 8.8 w/w

Boron (B) 0.4 w/w

Manganese (Mn) 4.2 w/w

Zinc (Zn) 0.5 w/w

Copper (Cu) 1.0 w/w

Sulphur (SO₃) 45.5 w/w

Crop Types & Application rates:

Crops: The full range of field crops, vegetables, fruit and ornamentals may be treated. Responses will be dependent on their susceptibility to any particular deficiency. All edible crops may be treated right up until harvest.

Rates of Application: Maintenance 1 kg/ha, Moderate Deficiency 2 kg/ha, Severe Deficiency 2 kg/ha repeated

Timings: As with all trace element sprays frequent repeated applications at relatively low rates are preferable to one large dose.

As nutrients are taken in by the foliage sufficient leaf area must be present to absorb the spray. This normally coincides with the 3-leaf stage onwards in most crops. Applications should be made in the early morning or late evening when the uptake by the plant will be maximised.

Mixing & Spraying:

Water Volumes: Do not apply in less than 200 litres of water per hectare unless the spraying equipment is specifically designed for low volume application (e.g. Airtec or low volume hydraulic nozzles).

DO NOT MIX with hormone weedkillers or mixtures containing hormone weedkillers unless specific recommendations are given.

Compatibility:

BroadAcre products are designed to be physically and chemically compatible with a wide range of agrochemical products. For more information please speak to your distributor, qualified agronomist, or the team at Micromix Plant Health info@micromix.com
